Welcome New Members

Due technical difficulties with both the MBCA website and changes with Constant Contact, the newsletter had been delayed. However with it all being sorted out, we didn't want new members who joined as far back as late July, to not be properly recognized and welcomed.

Making up for Lost Time at the Spinning Wheel
Nov 8th at 2 pm**

Come join us at The Spinning Wheel restaurant in Redding for the club's "Friendsgiving and planning session for 2021". We want to hear your ideas for events to hold next year. Tell us what you want to see, where you want to go and do. Your opinion is very important. As we have always said, this is not the Board members' club, it's everyone's club. It is your club. Next year's mission to make up for lost time by doubling the number of events.

So, bring your ideas and an empty stomach and join us for a late lunch at The Spinning Wheel Restaurant in Redding, CT (109 Black Rock Tpke, Redding CT.)

We can't wait to see ALL of you again.

This is a rain or shine and pay as you go event.

Club Decals

For those interested in getting a MBCA decal, there is a new procedure. You can either contact MBCA directly at 1-800-637-2360 ask for RYANNE or contact our section Membership Chairwoman Carol Persi at carolpersi75@gmail.com

Club Supporters

When your car is in need of service, please consider taking your car to one of the following garages. They have supported our club over the years by hosting events for the club.

Mercedes-Benz of Fairfield (Fairfield, CT)
ENI Motorsports (Brookfield, CT)
Dragone Classic Motorcars (Orange, CT)
Redline Restorations (Bridgeport, CT)
Classic Motorcar Service (Branford, CT)
Mercedes-Benz of Hartford (aka New Country MB)
Mercedes-Benz New London (aka Carriage House)

"How many of my car were made?"

If your car was made between 1945 and 1995 and you would like to know how many were made and what its approximate cost was when new, just shoot me an email (at jordanrichard@hotmail.com) with your model and year. In my collection of Mercedes-Benz-related books, I have one that lists all available production data. Now, keep in mind that this data does not go into how many of a particular interior or paint color were made. This goes into data like total production from the factory and, in some instances, the cost if the car was bought on the East Coast of the U.S. versus the West Coast.
